## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-21 are rejected under 35 U.S.C. 102(e) as being anticipated by Paatela et al. (U.S. Patent Publication No. 2002/0163935).

Regarding claims 1, 10, 12 and 21, Paatela teaches a system for providing transformation of multi-protocol packets in a data stream including multiple protocols associated with a single packet. The packet has header information corresponding to different protocols stored in a memory segment 716. The protocol indicators stored in memory include a first PPP header, a MPLS header, an IP header and a TCP header for a single packet. (see [0077]).

Regarding claims 2 and 13, Paatela teaches a router (see [0010]).

Regarding claims 3 and 14, Paatela teaches a switch (see [0010]).

Regarding claims 4 and 15, Paatela teaches a memory storage device (see [0077]).

Regarding claims 5 and 16, Paatela teaches a line card interface (see [0043]).

Regarding claims 6, 11, 17 and 22, Paatela teaches a first and second header with a first and second corresponding protocol (see [0077]).

Regarding claims 7 and 18, Paatela teaches a hardware component editing processor 714 (see [0076]).

Regarding claims 8 and 19, Paatela teaches software instructions used by the editing processor 716 (see [0076]).

Regarding claims 9 and 20, Paatela teaches driver software instructions (see [0075]).
